This workshop will feature the Special Needs Financial Planning process to help you achieve both your vision for your child and your own financial security. We will share examples of how to successfully plan to privately fund a home for your loved one with a disability. The discussion will center on the costs that need to be considered, as well as some of the challenges that individuals and families can expect.

The discussion will be framed in terms of the following 5 major planning factors:

- **Government Benefits**
- **Family and Support Factors**
- **Financial Factors**
- **Legal Factors**
- **Emotional Factors**

Cindy Haddad, CFP® and John Nadworny, CFP® of Special Needs Financial Planning, a division of Shepherd Financial Partners have been working with families of loved ones with Special Needs for over 20 years. Their passion comes from members of their own families who require specialized planning, which has shown them what a difference preparing for the future can make. Currently, John is in the middle of creating a home for his son, and Cindy works with her brother who moved to a supported residence 7 years ago.
